Charging and Battery

Before charging the Bluetooth with a charging cable, please check whether or not the cable is original. Warning: the Bluetooth must be charged with the supported charging cable. The using of unsupported charging cable may damage the Bluetooth, DC voltage must be 5V and the current should be larger than 200mA, compatible with normal 5V 1A mobile phone charger.

Bluetooth Charging

Earphones:

1. Place Earbuds inside Bluetooth casing for charging.

- White Light Still: Charging

Bluetooth Case

The Bluetooth has built in non-removable rechargeable battery. Do not attempt to remove the battery from the Bluetooth by yourself in order to avoid damage. 1. Plug in the Type-C cable into the Bluetooth charging port, plug the other end into a DC 5V charger or other power device, some power banks are not compatible with charging. The Bluetooth will start charging. When case is on charging mode.

Led Lights Turns White while: Charging

Bluetooth Pairing

Taking the Earbuds out of the charging box, the left and right earbuds will automatically connect and enter the Bluetooth Search Pairing state, find and select "Link-S27" Device to Connect.

Instruction:

Go to Bluetooth on your Device make sure your device is on pairing mode from there select " Link-S27" to start pairing.

Reconnecting Bluetooth

1. Opening the Box, the earbuds will automatically connect back to the last Bluetooth Device.
2. Earbuds are disconnected when they are 10 meters away from the device, to reconnect earbuds get in the range of the device within 1 minute of disconnection.

Disconnecting Bluetooth

Remove the earphones from the ears and place into the Bluetooth case and close it for disconnection.

Important safety Instructions

Warning: When using this product, basic precautions should always be followed, including the following:

1. Carefully handle earbuds and case.
2. They contain sensitive electronic components, including batteries, and can be damaged or cause injury if dropped, burned, punctured, crushed, disassembled, or if exposed to excessive heat or liquid.
3. Don't use damaged earbuds or case.
4. Place the earbuds inside the case and close the lid to turn them OFF.
5. Don't attempt to replace earbuds or case batteries yourself-you may damage the batteries, which could cause overheating and injury.
6. Listening to sound at high volumes may permanently damage your hearing. Background noise, as well as continued exposure to high volume levels, can make sounds seem quieter than they actually are. Check the volume before inserting Earbuds in your ear.
7. Use of Earbuds while operating a vehicle is not recommended and is illegal. Check and obey the applicable laws and regulations on the use of earphones while operating a vehicle.
8. Be careful and attentive while driving. Stop listening to your audio device if you find it disruptive or distracting while operating any type of vehicle or performing any activity that requires your full attention.
9. Earbuds and case may present a choking hazard or cause other injury to small children. Keep them away from small children.

10. Earbuds and case contain components and radios that emit electromagnetic fields. Earbuds and case also contain magnets. These electromagnetic fields and magnets may interfere with pacemakers, defibrillators, or other medical devices. Maintain a safe distance of separation between your medical device and earbuds and case. Consult your physician and medical device manufacturer for information specific to your medical device. Stop using earbuds and case if you suspect they are interfering with your medical equipment.
11. Earphones can lead to ear infections if not properly cleaned. Clean earbuds regularly with a soft lint-free cloth. Don't get moisture in any openings, or use aerosol sprays, solvents, or abrasives.
12. When using earbuds in areas where the air is very dry, it is easy to build up static electricity and possible for your ears to receive a small electrostatic discharge from earbuds. To minimize the risk of electrostatic discharge, avoid using earbuds in extremely dry environments, or touch a grounded unpainted metal object before inserting earbuds.
