2.Quick Shortcut For DND , Screen Brightness , Voice Assistant , Setting , Flash Light , Screen Locker

in the home page , swipe from top to bottom.

3.Ai Voice Assitant

EnSure S89 BT name connected with app , and the Audio BT (S89_HFP) to phone setting . then swipe from top to bottom in home page to enter and click the icon .now you can talk via watch to command phone.

4. Change Watch Face from APP

METHOD1: Using the crown button directly rotate to change watch face or go to watch manual → [Watch faces]

METHOD2: Customize the watch face and change the watch face via the APP's watch face store [LT Watch] → [Device] → [Watch faces] → [Edit] or [More] → [Select picture] → OK

(Do not leave the download interface until the download is 100% completed)

5. Step Counting

Activity data resets every day after 00:00 , and you can check the history records in the APP .

6. Heart Rate Monitoring

It measures your heart rate data . To measure your heart rate : Turn on the heart rate monitoring function , and after 2 seconds it will automatically measure the heart rate , then wait for about 10-20 seconds until the measurement is completed .

Besides , if you need 24H automatic heart rate monitoring , you can also set this function in the APP : [LT Watch] → [Device] → Turn on [Automatic heart rate detection] .

Notes : 1) Ensure the sensor at the back of the watch slightly touches the skin and the wristband not too tight or too loose .

2) If you need to measure the exercise heart rate , please go to the exercise mode for measurement .

7. Blood Oxygen Monitoring

It measures your blood oxygen saturation data . You can check the historical measurement results in the APP's blood oxygen interface .

8. Blood Pressure Monitoring

It measures your blood pressure data. You can check the historical measurement results in the APP's blood BP interface.

9. Sleep Monitoring

It records your sleep data, and you can check the history records in the APP (Default sleep monitoring period: 20:00pm-10:00am).

10. Weather

You need to connect the watch and LT Watch APP to get the weather information in your location. Moreover, you can go to **[LT Watch]** → **[Profile]** → **[Unit Setting]** → **[Temperature]** to switch between **°C** and **°F**.

Note: The weather information displayed on the smart watch is obtained from a third-party weather service provider. If your smart phone and smart watch obtain weather data from different weather service providers, then the displayed weather information may also be different.

11. Multiple sport modes

Exercise data will be automatically synchronized to the APP when connected, and you can check the detailed data records in the sports mode in the APP.

Notes: The watch does not built with GPS. But the GPS track function can be used in the Sport mode of app

12. Breathing Exercises

Follow the on-screen instructions for inhalation and exhalation (Breathing exercises help relax a person's mood, reduce psychological stress and improve vital capacity).

13. Shutter (watch should be connected to the APP)

Method 1: In the APP: Go to [LT Watch] → [Device] → [Easy camera], and click the shutter button to take a photo.

Method 2: On the watch: Click the shutter button on the watch's interface to take a photo, or shake your arm to take a photo automatically.

14. Sedentary Reminder

Go to [LT Watch] → [Device] → [Sedentary reminder] to enable/disable this function. If the watch detects no enough activities or steps during the set time period, the sedentary reminder function will be enabled, and the watch will then remind you every one hour.

15. Alarm Function

Go to [LT Watch] → [Device] → [Alarm] to set alarms according to your needs. Up to 5 alarms can be set (The alarm will only give a reminder when the set time is more than 2 minutes).

16. Calling function

[LT WATCH] APP → [Device] → [Call Reminder] (see picture 1)

16.1. The watch can answer and make calls, the settings are as follows:
